KNOW-HOW IN PNEUMATICS, HYDRAULICS, AUTOMATION, VALVE AND SENSOR TECHNOLOGY.

FOUNDED IN 1974 PETERS INDU PRODUKT IS AN INTERNATIONALLY RECOGNIZED AND ESTABLISHED MANUFACTURER OF PNEUMATIC, HYDRAULIC, AUTOMATION AND SENSOR PRODUCTS. DESIGNED AND PREDOMINANTLY PRODUCED IN THE COMPANIES HEADQUARTER IN WESEL, GERMANY, PETERS PRODUCTS ARE USED WORLDWIDE.

Distributors and Partners look after the needs of our customers in more than 20 countries. We are expanding our product portfolio constantly – we design, produce and offer valve- and sensor connectors, proximity sensors, pressure switches, special valves, suppression modules, relay modules and much more.

Each application has different demands on components and devices, so the solution for your specific task is the focal point for all our activities.

Customized developments are a continuous part of our business. From the sketch to the product, ready to install.

QUALITY IMPROVEMENT BY INDIVIDUALIZED TEST PROCEDURES – TOP PERFORMANCE IS OUR STANDARD!

INDEPENDENT OF THE COMPLEXITY – WE ARE PREPARED TO REALIZE YOUR PROJECT

The optimal solution fulfills not only the technical requirement; it also takes the budget under consideration. Sometimes you have no alternative to a new product development – but often you hit the target with a slight modification.

For Peters Indu Produkt it's understood to identify the best individual way. Conceived by our engineers and developed with modern CAD systems, many times our alternative approaches help our customers to find success!

Cable harness

No matter if it's just a simple cable connection or a complex cable harness, including Peters branded connectors only or products from other manufacturers

as well – with automated wire and cable cutting machines, crimp stations and comprehensive tooled work centers – we supply you with the right connections!

Printed Circuit Boards

Wired components, surface mount devices or a combination of both – with SMT lines, wave soldering or device-friendly vapor phase soldering we have the manufacturing flexibility for your specific electronics assembly.

Device Assembly

You need the right protection to use your product in a harsh environment – Hotmelt molding, resin-potted casing and / or ultrasonic welding, we complete your device ready-to-install. **And with our internal tool shop your needs are on the fast track.**

Test Equipment

Today, 100% quality control should be a given. But again we go further than that. Own vibration test equipment or climate testing down to -60°C [-76°F], we assure that your product survives in a demanding environment. It's our goal to make the life of our customers easier by providing new innovative products and services.

We are pleased to be your chosen point of contact.
